

# Global Education

## Main Takeaways:

- Some GEd instructors are interested in expanding the GEd Core to include a list of recommended topics that linking partners could choose from together (like GU)
- At institutions where the GEd course is a compulsory course or part of a compulsory course, recruitment was not an issue and students gave much positive feedback
- GU instructors may be able to assist in recruitment for GEd, sharing information about the course with GU students who are education majors
- Strong preparation prior to linking days is key to successful linking day discussions
- Interest in a platform where GEd teachers can share resources
- Evaluations (informal debriefs) after each linking day session helped students improve for following linking day discussions
